

**AAV Reference Material Working Group
Bid Submission Form
Donation of Tissue Culture Plastic Wares
RFP 7.0**

Item for Submission

A proposal for donating tissue culture plastic wares for the production of 2×10^{15} GC of the AAV reference material in approximately 200 cell factories using the 293/co-transfection method.

General Requirements for Bidding

The bidder will donate tissue culture plasticware for the production of 2×10^{15} GC AAV reference material using the 293/co-transfection method. The plasticware needs to be sterile, individually wrapped, disposable and manufactured by the major suppliers such as Nunc, Corning, Fisher, Falcon, etc. Certificates of Analysis with complete information of the products and manufacturers should be accompanied with all plasticware. Below are the required amounts of each item with an example manufacturer and catalog number for reference; equivalent quality plasticware is required.

Specific items for donation

- Sterile, individually wrapped pipets
 - 100 mls – 10 cases of 100. Corning # 4484
 - 50 mls – 10 cases of 100. Corning # 4360
 - 25 mls – 10 cases of 200. Corning # 4350
 - 10 mls – 3 cases of 200. Corning # 4340
 - 5 mls – 3 cases of 200. Corning # 4330
 - 2 mls – 2 cases of 500. Corning # 4320
 - 1 ml – 1 case of 1000. Corning #4311

- Sterile and individually wrapped filters.
 - 1000 mls filter system – 2 cases of 12. Corning # 431098

- T-225 cell culture flasks for seed cell production – 10 cases of 25. Corning # 431082

- Sterile centrifuge tubes and bottles
 - 500mls centrifuge tubes – 10 cases of 36. Corning # 431123
 - 15mls centrifuge tubes – 3 cases of 500. Corning # 430791
 - 50mls centrifuge tubes - 3 cases of 500. Corning #430829
 - 500 mls storage bottles – 20 cases of 12. Corning Costar # 8393
 - 250mls storage bottles – 20 cases of 12. Corning Costar # 8390
 - 500mls PETG bottles –10 cases of 24. Nalge Nunc # 2019 0500

- 2L PETG bottles – 20 cases of 12. Nalge Nunc # 2019 2000
- Nunc 10-layer cell factories. 54 cases of 6. Nalge Nunc # 170009
- Miscellaneous Items.
 - 60mls syringe – 1 case of 160. BD # 309653
 - 20 μ L pipet tips – 3 cases of 960 in 10 racks. Rainin # RT-L10F
 - 200 μ L pipet tips – 3 cases of 960 in 10 racks. Rainin # RT-L200F
 - Bacterial air vents 0.37mm sterile – 32 boxes of 10. Pall Gelman # 4308
 - Blue sealing caps – 9 cases of 40. Nunc # 167652

Please complete the following fields:

Contact Information – RFP 7.0

Contact Individual:	
Institution:	
Address:	
Phone Number:	
Email Address:	

Please indicate if your institution is also submitting proposals for the other activities:

- Tissue culture reagents
- Plasmid production
- Down stream processing equipment and materials (filtration, concentration, etc)
- Column chromatography materials (resins, columns, tubing, bags, containers and other accessories)
- Chromatography work station
- Donation of other supplies/services
- Storage and distribution of AAV reference vector

Documentation Requirements

To support requirements listed above, bidders should attach:

- a. Contact information form
- b. The institution capacity statement
- c. Cost analysis and cost recovery proposal
- d. Information/experience in shipping

Submit this completed form and all attached information for receipt **by September 30, 2004** to the address below. Electronic submissions are encouraged. Final decisions will be communicated by or about October 15, 2004. Please note that all information submitted will be publicly available. Please do not mark any information confidential, as we cannot honor that request. Please include an estimated cost and market value for goods and services donated.
